

Side Table

OVERVIEW

The Side Table is a compact addition to any lounge area, with a two-tier design that keeps everyday items within reach on top while the lower level keeps the rest just out of view. A durable steel base can hold up to 35lbs, while glides on the base make it easy to move without scuffing the floor. The melamine top, available in Woodgrain, Walnut, or Tofu, is tested to contract-grade standards for strength.

Alone, the Side Table anchors a chair or fills an empty corner. Pair it with our Nested Coffee Tables for a completely modular set that looks just as at home in a high-traffic break room as it does in a living room.

MATERIALS

Melamine top surface with MDF core, powdercoated steel base with plastic glides.
